The freight train on the Atlantic coast line road coming from Weldon and Smith's siding about two and a half miles north of town Friday morning of last week. The cause of the wreck was due to a large coal car leaving the track. Six cars were derailed and the track was torn up for about 250 feet. The passenger train from Weldon and Kinston met the wreck and transferred passengers, mail, express, baggage etc. wrecking train come from Rocky Mount and cleared the wreck and rebuilt the track by 6 o'clock in the afternoon and the passenger trains made their regular runs.

No one was hurt in the wreck. The train was in charge of conductor H. Bryan and engineer Ed Clark. Quite a number of our town people visited the wreck during the day and to some it was the first they had ever seen.

His Bond Reduced.

In a habeas corpus hearing before Judge C. M. Cook, at Louisburg, on Wednesday, of last week the bond of Mr. E. E. Powell, Jr., was reduced from \$3500.00 to \$1500.00. Powell was tried before Mayor A. C. Livermon some weeks ago under several different warrants charging him with selling liquor. He was bound over to court in each case and the mayor made the bond \$300.00 in each indictment.

Judge Cook looked at the matter differently from the way Mayor Livermon did and reduced it as above stated saying that he thought \$1500.00 was sufficient.

The friends of Powell readily gave the reduced bond and he was allowed to come home, and is now at his store attending to business.

It is being talked on the streets that when the trial comes off at the August term of court Powell is going to make statements that will be damaging to others besides himself.

For the good of the community the whole matter ought to be sifted out.

Warrenton District Conference.

The thirtieth annual session of the Warrenton District Conference of the M. E. Church, South, was held with the Methodist church at Williamston from Wednesday, June 29th., to Saturday, July 3rd.

Rev. J. E. Underwood, Presiding Elder of the District, preached the opening sermon Wednesday night. The conference organized the next morning by electing Rev. C. L. Read secretary, and the appointment of the working committees. It was a busy session from beginning to end. Mr. Underwood makes an ideal presiding officer. The preachers made very encouraging reports of their work on the various charges. The preaching and speeches before the conference were of a high order and very interesting.

The homes of the people of Williamston were thrown wide open to the visitors and all were given a hospitable and cordial reception. This writer was fortunate in being assigned to the home of Mr. and Mrs. Geo. Gurganus where we were entertained in the very best style and where every thing was done to make our stay pleasant and of lasting remembrance.

Several preachers remained over and preached in the various churches in Williamston Sunday morning and night.

The next session of the conference meets with the Scotland Neck Methodist church.

Aulander vs. Scotland Neck.

In a game of ball interesting at times here Wednesday, Aulander defeated the strong Scotland Neck aggregation by the score of 8 to five. This is the only day that is recorded against the four fingered spitter, his main trouble was wildness in pitches. In the fifth with the score 0 to 0 the locals came to the bat and off of a pass and six hits scored four runs, this was overcome when the visitors with the big end up in the sixth slambashed Darden for seven safeties which netted them five tallies. The score board was tickled no more until the eighth when Darden allowed two passes and one safety and these coupled with three errors gave the boys from across the river three runs. In Scotland Neck's half of the eighth one more run was added to her list. The features of the game was the classy work of the whole Aulander team, and the bone headed work of the locals.

Batteries: Aulander, Mitchell and Dunning; Scotland Neck, Darden and Kiddick. Umpire, L. R. Mills, Jr. Attendance, 200.

FACTS WORTH REMEMBERING

In 1623, a copy of Shakespeare sold for \$5. In 1886 Oliver Wendell Holmes was offered this same book for \$4,000. But had \$5 been put out at compound interest (4 per cent.) in 1623, it would have amounted in 1886 to 160,000.
